

Each year in January the Parish Council sets its budget for the coming financial year. As part of this process, the Council agrees the Parish Precept, which is the portion of Council Tax collected on behalf of the Parish Council to fund local services and projects within the village.

When setting the precept, councillors carefully review expected costs, planned improvements and the increasing cost of maintaining local services. A significant amount of time and consideration goes into this process, with councillors working hard to balance the needs of the community while being mindful of the impact on residents' council tax.

The precept forms only one part of the overall Council Tax bill, with the remainder set by Somerset Council, the Police and Crime Commissioner and the Fire Authority.

Residents are always encouraged to attend Parish Council meetings, where budgets and decisions are discussed. We welcome anyone to share thoughts, questions or feedback about the village to come along.

The Parish Council is committed to working openly and collaboratively with the community, and we value residents' input in helping shape decisions that affect our village.
